

"The day of Memory"

"This unique trip, will brighten your day in a pleasant bike ride to visit the former Concentration Camp of Fossoli and discover the fascinating Museum to the political and racial deportees from Nazi extermination camps"

*An **itinerary by bike**, path to learn about the most fascinating and painful history, that characterizes our city.*

*We will start from the **historic center of Carpi**, with its beautiful Renaissance Palace in the great Piazza Martiri, at 09.00 am to continue north through the countryside. We will arrive in Fossoli about six kilometers from Carpi to visit the **Concentration Camp. Guided tour.** The camp was built in 1942 by the Royal Army to imprison enemy soldiers. Since March 1944 it became a police and transit camp (Polizei und Durchgangslager), used by the SS as an antechamber of the Nazi Lagers. Twelve convoys were formed with the internees of Fossoli and on the first train to Auschwitz, on February 22nd, **Primo Levi** also travelled. He recalls his brief experience in Fossoli in the first pages of "If this is a man" and in the poem "Sunset at Fossoli".*

*Later we will visit the **Monumento al Deportato Museum** (inaugurated in 1973) A unique structure of its kind, the result of the civil commitment of artists who were also witnesses of the events they represented. Here are preserved suggestive graffiti of some great painters such as **Picasso, Longoni, Léger, Cagli and Guttuso** who commented in their own way the horror of the Deportation on the walls of the Museum. End of service .*
